been trying to get the value of form using angular js on form submit. someone help me what to do. I am new to angular JS.

```
<div id="content" ng-app="TryApp" ng-controller="AppController" ng-submit="submit()">  
<input type="text" placeholder="first name" name='name' ng-model="user.Name"/>  
<br>  
<input type="text" placeholder="email address" name="name" ng-model="user.email"/>  
<br>  
<input type="text" placeholder="age" name="age" ng-model="user.age"/>  
<br>
```

script.

```
App.controller('AppController', function ($scope){  
  })
```

You need a `<form>` to apply `ng-submit` to. Also give form a name for your validation object – [charlietfl](#) Aug 12 '15 at 3:57

```
var app = angular.module('TryApp', [], function() {})  
  
app.controller('AppController', function($scope) {  
  $scope.user = {};  
  $scope.submit = function() {  
    //here $scope.user will have all the 3 properties  
    alert(JSON.stringify($scope.user));  
  }  
})  
  
<script  
src="https://ajax.googleapis.com/ajax/libs/angularjs/1.2.23/angular.min.js">  
</script>  
<div id="content" ng-app="TryApp" ng-controller="AppController">  
  <form ng-submit="submit()">  
    <input type="text" placeholder="first name" name='name' ng-  
model="user.Name" />  
    <br>  
    <input type="text" placeholder="email address" name="name" ng-  
model="user.email" />  
    <br>  
    <input type="text" placeholder="age" name="age" ng-model="user.age" />  
    <br>  
    <input type="submit" value="Save" />  
    <p>{{user | json }}</p>  
  </form>  
</div>
```
